PLANTATION COMPANY SECURES LEASES

The records of the Bureau of Convey ances as of yesterday showed leases made by a number of Maulua Gulch, Hawaii, homesteaders to the Laupahoe boe Sugar Co. This land was opened for settlement six or eight years ago, and the lots quickly taken by persons awing in the vicinity. When the lots

were secured by settlers there seemed a likelihood of a cooperative sugar mill being erected near at hand.

Centracts were made by H. B. Gehr and Mr. Soule, at that time of Hilo, with the homesteaders, but in some way the plantation interests were able to the plantation interests were able to assert themselves, and Gehr and Soule felt the squeeze. The case went into the Fourth Circuit Court and a bond the Fourth Circuit Court and a bond given with J. E. Ray as surety. Soule shortly afterward left the country and Ray had to make good the amount of the bond. Now the "homesteaders" have given up their holdings in the sual way. The land is convenient to the lands of the Laupaheehoe Sugar Co. and the cane would have to be ground at that mill unless an indepen-dent one was built.

ABOUT MAUD.

McPhee, the cowboy, went to Hono lulu this week to attend the Wild West Show to be given there. He was great-ly disappointed in not being able to pursuade the steamer people to take Mand, but as the fame of Mand of Kabids fair to equal the fame of Mand of the comic papers, they de-morred. The Hawaiians here call Mand the "Kahikinui Dovil," and from her traits it would seem that she has 1 of been misnamed.—Maui News.

A conveyance by George P. Denison to the Hawaiian Planters' Experiment Station of some land on Bingham street, to be used for the purposes of the experiment station, was filed with Ecgistray Merriam yesterday.

Farragut, entered the harbor yesterday morning about 8 o'clock after a trip to San Diego and return. The towing of destroyers and torpedo boats for long ed more accurately a distances at sea was an innovation in locals at every point. naval practice, and the experiment was made preliminary to the voyage to Saon this fall.

Each cruiser had a torpedo craft in announced that the experiment was an entire success. The only mishap oc-curred on the voyage down the coast, when the chains, which had been thrown pedo boats, became kinked and the links gave away. As soon as the chains were replaced with wire cables no fur-

ther difficulty was experienced.

A report of the voyage will be for experiment. In this event the voyage Samoa will doubtless be made already contemplated, the cruisers tow-ing the torpedo craft and destroyers.
